

SECOAT[®] R51 Writeable, Low Gloss Release Coating

Release surfaces that can be printed with, especially water-based inks and ink-jet printers, are difficult to provide. **SECOAT R51** Release Coating achieves a balance of mid-range peel values and excellent ink-jet printing performance. The clear, low-gloss coating performs well in self-wound ink-jet roll labels and other writeable paper tape applications.

FEATURES

- Aqueous emulsion -- no solvent emissions
- Easy to apply with roll or knife applicators
- Sharp, dense ink-jet images
- Releases from various adhesives

TYPICAL PROPERTIES

Solids:	36%
Viscosity:	400 cps
pH:	4.0

OMNOVA Solutions provides many different release products designed for the tape and label industry. Because of the unique nature of tape and label products (adhesive selection, application techniques and use expectations, etc.), a great variety of coatings have been developed. Please call your OMNOVA Solutions representative to discuss your particular tape or label release coating needs.

STORAGE AND HANDLING

- Shelf life of 3 months, test to recertify release force
- Stir, mix well before using
- Protect from freezing
- Refer to Material Safety Data Sheets for additional details

NOTE:

Although data supplied above are believed to be accurate, each user is advised to make his or her own determination as to whether the described product(s) is/are appropriate for a particular use or application, whether such a use will comply with all applicable laws or regulations, or whether such a use will not infringe the intellectual property rights of third parties.
