

Omna-Glo™ 100 Latex Polymer

Omna-Glo™ 100 latex is designed to be the primary polymer ingredient in scrub and recoat floor polishes.

PRIMARY BENEFITS:

- **Low maintenance costs**
- **Properly formulated polishes exhibit outstanding properties**
 - High gloss, both initially and over time, which reduces the frequency of required strips – *reduces the cost of maintenance*
 - Outstanding detergent resistance so that particularly dirty floors can be aggressively cleaned without removing the polish – *reduces the need for expensive repair coats*
 - Very good “pop” which eliminates the need for extra coats over time – *reduces maintenance costs*

<u>Features</u>	<u>Typical Properties</u>
<ul style="list-style-type: none"> • Outstanding initial and sustained gloss after maintenance 	Solids: 40%
<ul style="list-style-type: none"> • Outstanding detergent resistance coupled with excellent removability 	Weight/gallon: 8.7 lb./gal.
<ul style="list-style-type: none"> • Low odor 	
<ul style="list-style-type: none"> • High solids (40% as supplied) 	pH: 8.5
<ul style="list-style-type: none"> • No APE (alkylphenol ethoxylate) 	
<ul style="list-style-type: none"> • Heat stability 	Viscosity: < 50 cps
<ul style="list-style-type: none"> • Economical formulations 	
<ul style="list-style-type: none"> • Zinc crosslinking
