

To assist you, OMNOVA Solutions has prepared the following **radiance™** Flat Laminate Cross Reference Guide. The guide identifies a number of our popular **radiance** Flat Laminates whose color and pattern match those of our 3D Laminates and **surf(x)®** 3D Laminates. In turn, our 3D Laminates and **surf(x)®** 3D Laminates closely match the color of many High Pressure Laminates (HPL) and Thermally Fused Melamines (TFM) available in today's market. Together, this selection of products enables specifiers to easily and accurately coordinate the finishes in store fixtures, cabinetry and furniture.

OMNOVA <b>radiance</b> Flat Laminate Description	SAP Number	Availability	OMNOVA 3D Laminate Description	SAP Number	Availability	Thermally Fused Melamines								
						Arclin	Coveright	Flakeboard	Funder	Panolam	Pluswood	Roseburg Duramine	Tafisa	Uniboard
<b>Woodgrains</b>														
Hayward Cherry	508534	STK	Hayward Cherry	508624	STK		H1304 Oiled Cherry					051 Wild Cherry 333 Brentwood Cherry 334 Cinnamon Maple		978 Regal Cherry

**PLEASE NOTE:** A high-temperature formulation allows **radiance** Flat Laminates to be hot-laminated to metal and plastic substrates. Due to this high-temperature formulation, the surface appearance of **radiance** Flat Laminates may differ in gloss and texture from their 3D Laminates and **surf(x)®** 3D Laminates counterparts.

Red text indicates a primary color match. Black indicates a secondary color alternative.
