

Marine Polyester Fabric

OMNOVA Solutions introduces **Nautolex**[™] polyester fabric, made from 100% marine-grade polyester, for outdoor applications where UV stability and fabric strength is needed. Uses include protecting marine upholstery and carpet against premature wear in a variety of outdoor marine applications. Polyester fabric is urethane coated for weave stability (shrink/stretch resistance) and superior strength while maintaining a light weight. Features a limited 5-year warranty.

Applications

- Boat Topping
- Morning Covers
- Seat Covers
- Storage Bags

Benefits

- High UV Rating. Resists fading and light penetration.
- Superior water and mold/mildew resistance.
- Strong tear and abrasion resistance.
- Lightweight. Easy to stow.

Marine Performance Products

Marine Polyester Fabric

Specifications

Width 60"
 Roll Length 100 linear yards
 Weight 7.5 oz. per square yard
 Construction Woven polyester
 Backing Urethane

Physical Properties

Abrasion Resistance 6,000 cycles,
 stainless steel wire screen
 Tensile Strength (CFFA-17) 350 x 300
 Mildew Resistance ASTM G-21
 UV Resistance 650 hours
 Cold Crack (CFFA-6a) -10°F
 Other Product Features Microbial resistance

The Nautolex Advantage

Durable.

Nautolex marine products provide long lasting performance even when exposed to the rigors of harsh environments, including the ravaging effects of heat and cold.

UV-Resistant.

Nautolex marine products are formulated with special UV-stable pigments that offer long term performance against exposure to the sun and elements.

Mildew Resistant.

Specially formulated with anti-microbial additives, **Nautolex** marine products resist the growth of mold and mildew on both the backing and the face.

Versatile.

A wide range of both interior and exterior **Nautolex** marine products enables boat manufacturers to fill every application need through one source.

Design Leadership.

Nautolex marine products lead the way in design and color choices. And for custom needs, no one else offers the breadth and flexibility available through OMNOVA's extensive custom capabilities.
