I N S I G H T S

V O L U M E V

OMNOVA Solutions is excited to share the fifth edition of ***INSIGHTS***, our visual translation of emerging design trends with an intimate view of next generation decorative surfaces. Rooted in research and curated with character, this annual publication highlights key color and finish trends. This edition, **INTENT**, includes three design narratives with over 40 new laminate offerings.

Be inspired with ***INSIGHTS***.

Lead with Design. Lead with OMNOVA.

INTENT

/in'tent/

noun

intention or purpose.

Reason and empathy are the designer's hammer and chisel; with these tools they can align the built environment to the needs of our fellow humans. In the hands of a designer, these tools can give life to a space so that it becomes a friend and companion that serves, guides and comforts.

INTENT is a stripped-down tribute to design fundamentals. It looks past the ever-changing array of styles to address the substance of today's deeper need for sense-making, connection and breathing space.

01 LAYER

02 CONNECT

03 TRANSCEND

LAYER

Accommodating opposites. Defined, yet blended.

We value structure and compartmentalization, but in today's world we are encouraged everywhere to balance conflicting priorities and manage ambiguity. We can see this in design briefs for "resimercial" spaces blending home and work. Or multi-generational environments bringing together the vastly different needs of young and old.

Creating a workspace to suit the needs of both neurotypical and neurodiverse employees requires designing to balance a range of cognitive styles and challenges.

Rich and complex, LAYER's color palette reflects the variegated patterns of modern living. It celebrates designs that are intentionally inclusive.

Seneca

Seneca Iceland
541792

Seneca Smoke
541798

Seneca Dockside
541796

Seneca Fumed
541794

Soft tones with neutral surfaces help control lighting conditions and create a calming environment suited to the needs of a workforce inclusive of those with differing cognitive needs.

CONNECT

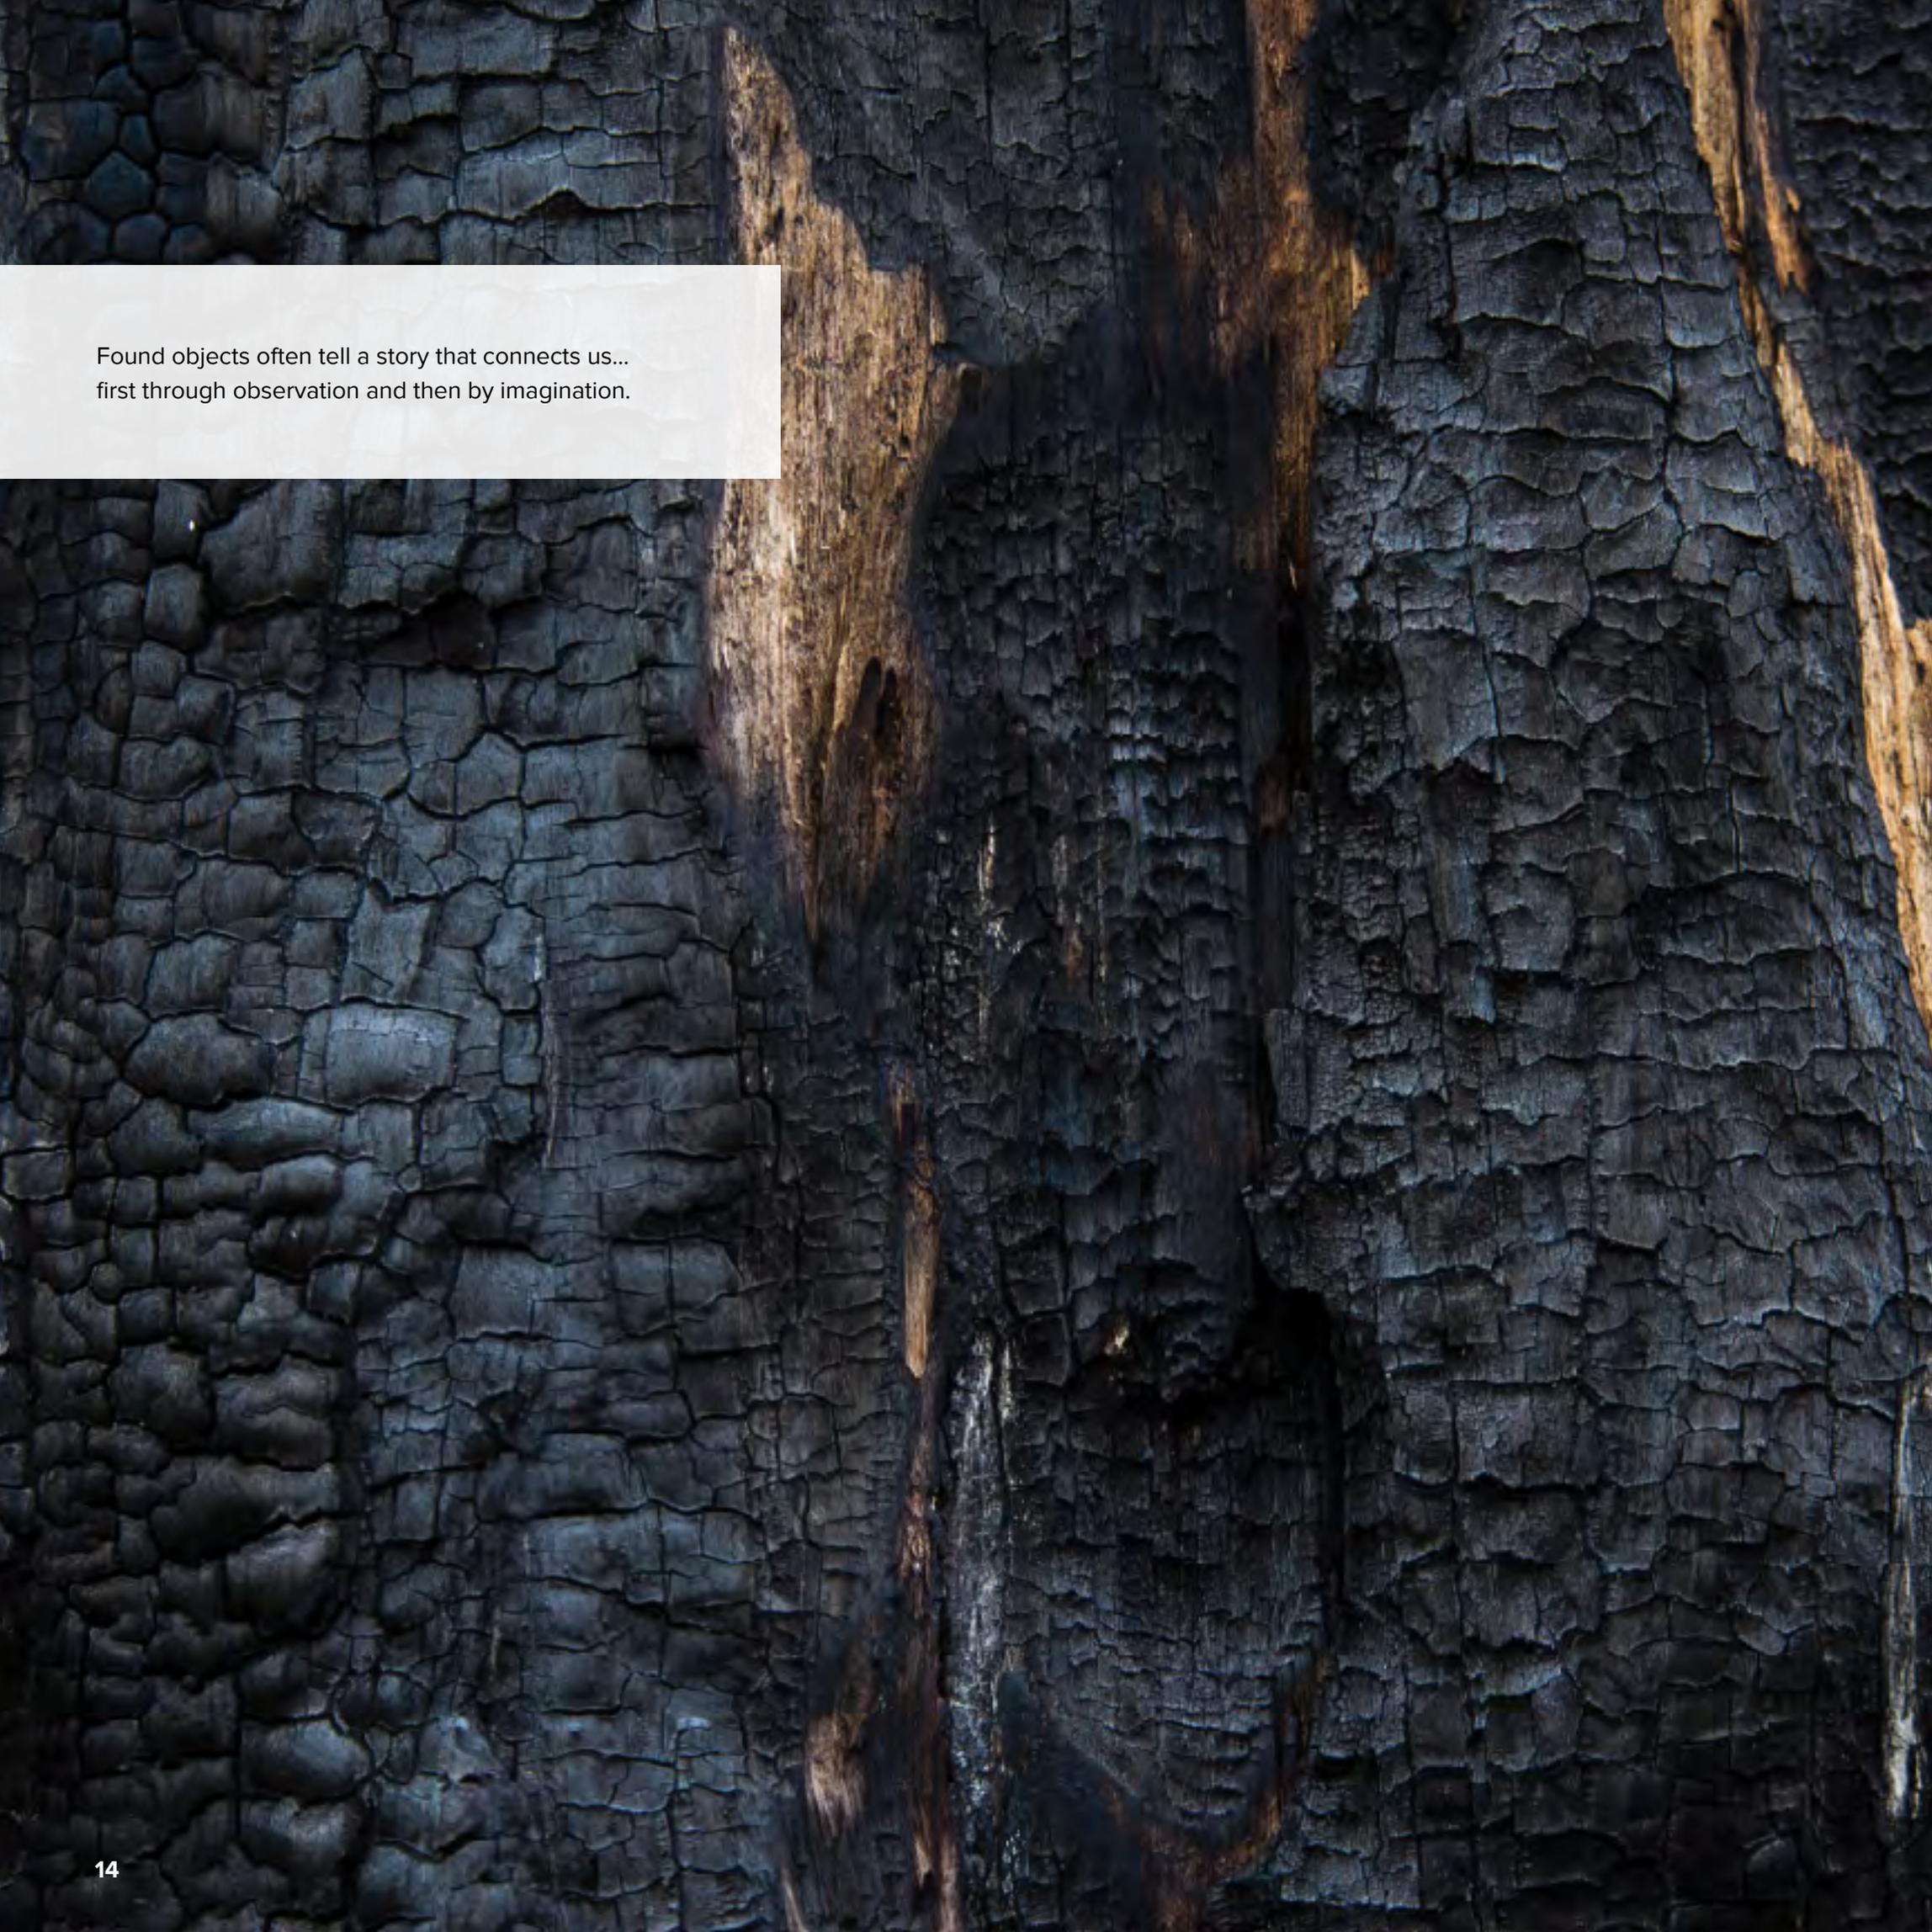

Using evidence. Honoring experience.

There is no denying the relationship between the quality of our built environment and the safety, productivity and enjoyment we derive from it. We appreciate the artisan's skill when we experience the quality of their work. We value ethical design choices because they make the world a better place.

Something inside us responds to the patterns found in nature. A sense of belonging and elevated mood.

CONNECT offers tones, patterns and textures that tell the story of our connectedness to nature and to each other. Natural surfaces, rich in detail, reverberate in built spaces and remind us of our relationship to the natural world.

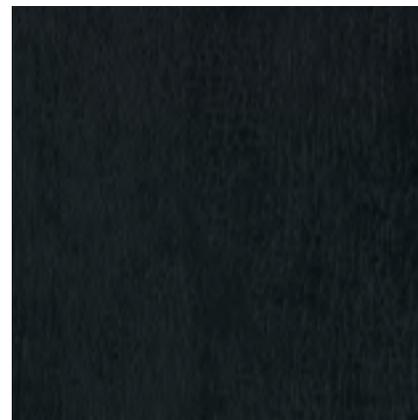

Found objects often tell a story that connects us...
first through observation and then by imagination.

Charred Cedar

Whitened Charred Cedar
539902

Charred Cedar
539899

Charred wood finishes
have raw beauty revealed
through calamity.

TRANSCEND

Focusing awareness. Embracing the moment.

In today's on-demand world of constant information downloads and at-your-fingertips content, we increasingly appreciate the act of mindfulness. Seeking to calmly understand one's feelings, thoughts and sensations leads to an awakening of both self and spirituality.

TRANSCEND offers a color palette that is inspired by our need for introspection and recovery, and a craving for self-healing, serenity and silence.

Light woodgrains invoke a desire to achieve a calming sense of personal wellness and gratitude.

Darker and deeper woodgrains serve as a backdrop for the stars and planets to align. Astrology and other spiritual practices may provide a roadmap to respire.

Modo
