

Technical Bulletin: 2023.02

NSF® Certifications for 3D and surf(x)® 3D Laminates

Subject:

OMNOVA 3D and **surf(x)**® 3D Laminate designs that are NSF® certified for Food Zone, Non-Food Contact and Splash Zone applications

NSF Certification Summary:

NSF Certification signifies that the final product complies with specific standards for safety, quality or performance. This review typically includes comprehensive formulation and material reviews, testing and facility inspections.

What This Means for Our Customers:

- Increased product options for customers who require NSF product certification
- OMNOVA is in compliance with national or international standards and regulations
- Independent validation of OMNOVA's commitment to safety and quality
- Demonstrates OMNOVA's proactive commitment to obtaining industry certifications relevant to its customer base

OMNOVA NSF Certifications:

Food Zone, Non-Food Contact: Defined as surfaces in a food zone / food prep area where food or condensate may contact and then drain, drip or splash back into food or onto surfaces that are intended to be in direct contact with food. For example, vertical surfaces in a food prep zone such as backsplash, would fall under this certification.

- *Food Zone, Non-Food Contact Certified Laminate:* Starlight White HG 3D Laminate | SKU 508560

Splash Zone: Defined as surfaces, excluding those in a food zone, that are subject to splash, spillage or other food soiling during use, such as a beverage station.

Please see reverse side for full list of Splashzone-Certified Laminates.

surf(x) 3D Laminates			
SKU Number	Design	SKU Number	Design
508837	Almond Cherry	527956	Matte Stone
