

Copenhagen Gray is a sliced walnut with straight and cathedral features in a dark gray finish. Referenced SKU is for 250 LY roll. Also available in a 50 LY roll.

Like all our 3D Laminates, it can be membrane-pressed or vacuum-formed to contoured surface profiles eliminating the need for T-molding, edgebanding, visible seams and special edge treatments.

As part of the harmony Program (</product-types/laminates/harmony-program>), this design is also available in a Paper Laminate construction (</products/laminates/paper-laminates/copenhagen-gray>).
