## Who We Are

OMNOVA designs and manufactures Decorative Laminates reflective of emerging market trends for residential and commercial interior environments. Our laminates provide innovative, long lasting and cost-effective surfacing for a wide range of applications from cabinetry and shower surrounds to store fixtures and countertops.

### The OMNOVA Advantage

- ✓ Domestic design, manufacturing and distribution
- ✓ As a design leader, we offer one of the industry's largest design libraries
- ✓ A wide range of high-quality laminate constructions to meet your performance, design, cost and fabrication requirements
- ✓ Custom capability to quickly create unique and differentiated products

## Our History

*Partner with an industry technology and design leader.*

A creative and technology-driven company, OMNOVA designs and manufactures surface laminates that meet the decorative and functional demands of customers across a variety of end uses and applications.

### Design

Drawing on influences from around the world, OMNOVA's design staff combines colors, patterns and textures to achieve distinctive designs that provide a wide range of decorative solutions for today's commercial and residential interior environments.

### Customer Focus

Customer focus sets us apart. Offering domestic manufacturing and extensive stock programs, OMNOVA can reduce your inventory requirements and increase your speed to market. We take the lead in developing, applying, and marketing innovative new technologies that make our products look better, last longer and offer greater value. In addition, the breadth of our product lines, from light basis

weight paper to 2D and 3D laminates, as well as specialty films, offers the greatest number of solutions for your decorative and performance needs.

### Innovative Technology

Innovative design technology leads the way. Our embossing technology complements our designs and continued investment has been the catalyst for our introduction of Emboss-in-Register (EIR) technology with our **surf(x) Echo™** and **Echo™** 3D Laminates. OMNOVA also produces a multitude of additional textures that offer realistic finishing effects and reflect the market demands our customers have come to expect.

In addition, OMNOVA offers a variety of coating technologies that provide industry-leading benefits. From our highly durable **surf(x)®** coating to our best-in-class **Matte Luxe™** surface technology, customers continue to rely on OMNOVA to meet their aesthetic and performance requirements.

## OMNOVA Originals

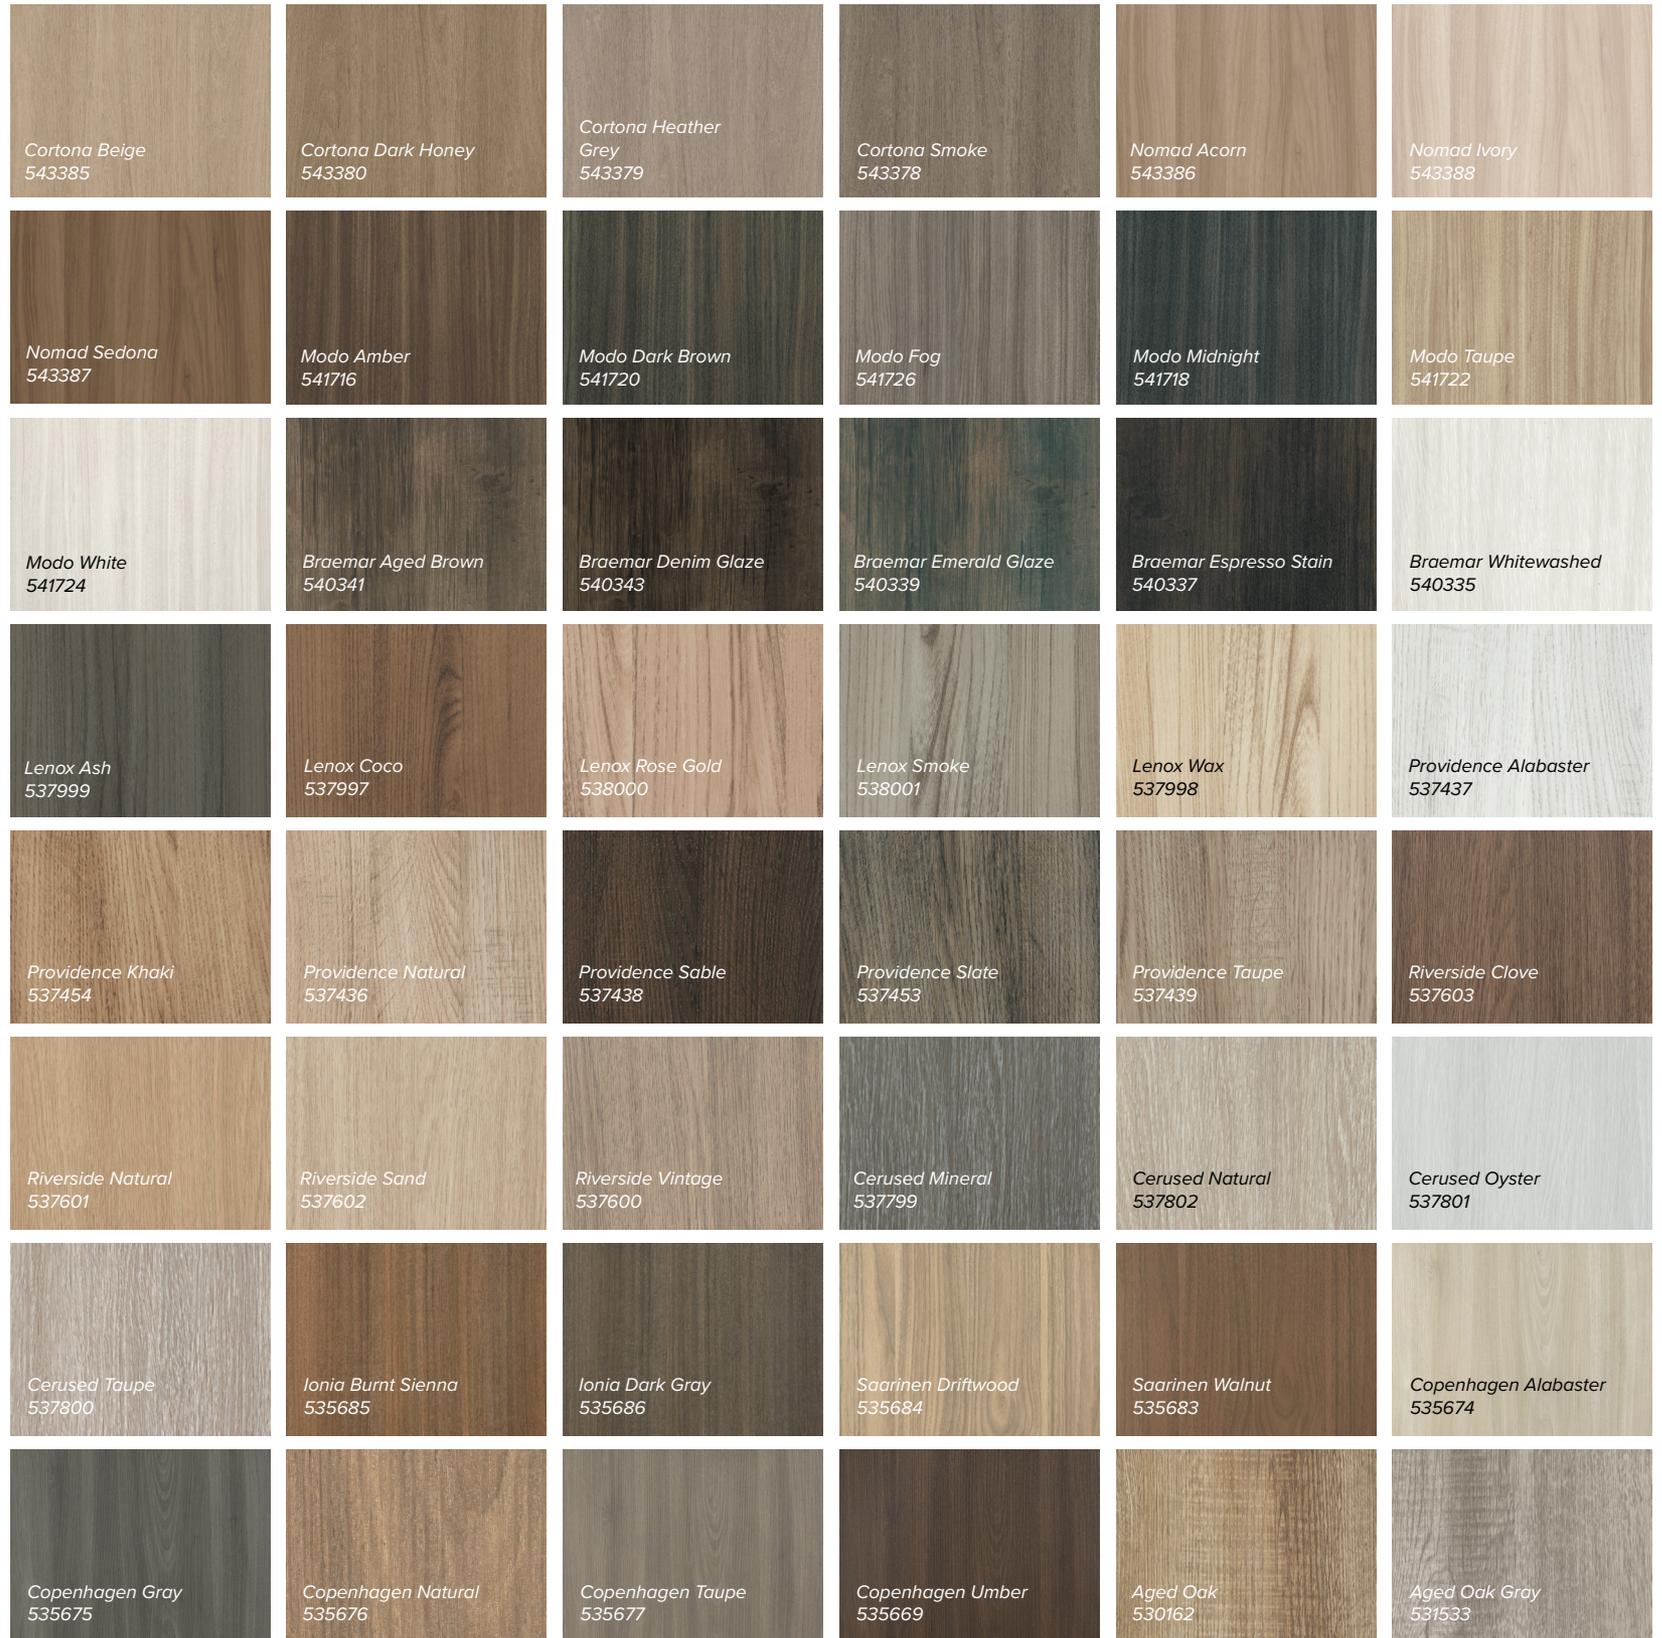

Each year, OMNOVA launches original, visionary designs developed with the end-use environment in mind, providing you with an expert perspective for what is on-trend in your particular market.

### harmony Exclusive™ Program

As the only manufacturer capable of printing light basis weight paper, 2D and 3D Laminate, OMNOVA's **harmony Exclusive™** Program enables fabricators and designers to value engineer components using the same design across multiple constructions for an economical, performance-driven solution. Providing a seamlessly blended finished product, our **harmony Exclusive** Program maintains color integrity and eliminates the complexity associated with coordinating products across multiple suppliers.

OMNOVA Originals are available in the following designs.
