

*Frieze Sand* is an elegant arabescato marble with dense intricate vein structure ranging from gentle to bold. A light beige marble with brown veins.

Like all our 3D Laminates, it can be membrane-pressed or vacuum-formed to contoured surface profiles eliminating the need for T-molding, edgebanding, visible seams and special edge treatments. As a **surf(x)** 3D Laminate, it features our highest level of durability.

Referenced SKU is for 250 LY roll. Also available in a 50 LY roll.

## Industries & Markets

- Recreational Vehicles

## End-Use Applications

- Interior Surfaces

## Product Specifications

Finish	Satin
Gardner Gloss Level	6 ANG
Width	53" in

## General Product Information

Availability	Stock
Minimum Order Qty	50 LY
Embossing Number	E-415
Gardner Gloss Level	6
Product Selection Considerations	Though our laminates can be used in many applications, all laminates are sold with the understanding that customers will make their own independent determination whether a particular laminate has the durability and other performance attributes required for the specific end use laminate application – not all laminates are suitable for all applications.

## Application Information

Fabrication Process	<ul style="list-style-type: none"> <li>• Flat Lamination</li> <li>• Membrane Press</li> <li>• Miter Foldable</li> </ul>
