

Zinc Plate is a dull, distressed zinc metal.

Like all our 3D Laminates, it can be membrane-pressed or vacuum-formed to contoured surface profiles eliminating the need for T-molding, edgebanding, visible seams and special edge treatments. As a **surf(x)** 3D Laminate, it features our highest level of durability.

Referenced SKU is for 250 LY roll. Also available in a 50 LY roll.
