

Designer White is a bright white colored, vinyl laminate.

Like all our 3D Laminates, it can be membrane-pressed or vacuum-formed to contoured surface profiles eliminating the need for T-molding, edgebanding, visible seams and special edge treatments. As a **surf(x)** 3D Laminate, it features our highest level of durability.

Excellent color and grain match to Arauco Prism Thermally Fused Laminate (TFL) *White* and Wilsonart High Pressure Laminate (HPL) *Designer White*. Good color match to Uniboard TFL *NovaWhite*, Formica HPL *Brite White* and Pionite HPL *Angel White*. Click "Industry Match" icon below for Reference Guide.
